Art Unit: 3617

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hale. Hale discloses the claimed subject matter including an outboard motor (column 4, lines 24, 25) with a water cooled engine and a combustion chamber, exhaust passage means, an exhaust manifold cooling water jacket 5, a pump, and a water jacket outlet 46 with flow rate control means 23.

3. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hahn shows a device. Oyaizu shows an engine. Nishi shows an engine.
